

Navigating New Horizons in Arts Education

Two dates
to choose
from!

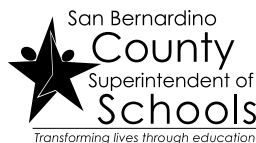

Immerse yourself in a dynamic day of professional learning, hosted by SBCSS, where we delve into the 2019 California Arts Standards and the 2020 California Arts Education Framework. Join the discussion to explore the evolving landscape of Arts Education.

Discover how these standards and framework empower educators to cultivate creativity and expression in young minds while fostering a collaborative learning environment. Throughout the day, arts leaders and educators will discuss pedagogies and current practices aimed at engaging students, nurturing expressive voices, and honing critical thinking skills in the arts.

Join us for an opportunity to build connection within a county-wide arts education network, where we share promising practices that elevate arts education across San Bernardino County.

**Light breakfast will be served.
Lunch will be on your own.**

No Fee
