

Module 26

ART AS A CATALYST FOR SEL

The **California County Superintendents Statewide Arts Initiative** is pleased to host a webinar with module author **Amy Bultena of Stanislaus County Office of Education** who will unpack the newest Creativity at the Core Module 26 entitled, Creative Health and Wellbeing Through Visual Art: A Social-Emotional Approach to Learning, Grades UPK-12.

Target Audience: UPK-12 Teachers (of any/all disciplines), Administrators, and Counselors

Join us to build necessary skills, tools, knowledge, and self-confidence to promote students' creative health and well-being through visual arts. The Module is designed to foster the creative well-being of both educators and students alike.

Content includes

- A framework for supporting SEL via Visual Art
- Incorporating mindfulness and respecting the diverse cultures, communities, and identities found in today's culturally-responsive classrooms.
- Principles outlined in the Studio Habits of Mind
- Ten California Arts standards and SEL core competencies-aligned visual art projects for students in grades UPK-12th, and
- A visual art project for educators.

The intended outcome is to increase educator and administrator self-confidence and efficacy in the support of their own creative health and well-being, and in doing-so increase their ability to provide the same for their students.

REGISTER

MARCH 26, 2024 | 4:00 - 5:00 PM
VIRTUAL WEBINAR | qrco.de/benK9e

This event is FREE but registration is required. Registration deadline is March 19th. Please contact Charissa Lewis for more information clewis@cacountysupts.org
